# Red Hot F1

*F1 Hot Pepper*

## TECHNICAL DATA

A very strong plant vigor and high yielding. Tropical cultivation: all the year round. Avoid too cool season. Fruit: Fresh fruit size with thick flesh is 12-13 cm in length, 1.8 cm in width and 17-19 gram weight per fruit. Nursery: 18- 25 days. Transplant at 10 leaves stage, spacing 55-65 cm. Density: 24.000 – 26.000 plant per ha. Harvest: 35-40 days after pollinating (90 days after sowing time) and during 3-4 months.

## FEATURES

- *Maturity 43-45 days after transplant*
- *High resistance to *Phytophthora capsici*..*

**Disclaimer:** All variety information is based on field and laboratory observations. Data presented is believed to be accurate at the time this information sheet was prepared.
